WaveSpin™ testimonials from anglers, guides and pro fishermen

"Awesome reel. I have fished four tournaments so far with this reel and have not walked off my line yet! I fished with my partner and he had to untangle his line four times, while I continued fishing. It was great not having to waste fishing time to untangle my line."

*- Linda Ward, professional angler,
Big Rapids, Mich.*

"Bass Professor™ Doug Hannon has created the PERFECT SPINNING REEL with an innovative design that eliminates snags before they happen by handling loops in a new way. The reel skips from peak to peak on each wave and forces the loops to lie down harmlessly. Loops are not off loaded during casts, which lowers friction for longer casts. Allows you to fill spool to a higher capacity."

- Cabela's 2008

"Never having been a big fan of spinning reels, the Doug Hannon WaveSpin has opened a whole new world of fishing for me. It's the most hassle-free reel I've ever thrown. The WaveSpin has proven itself on numerous occasions and while it has many attributes, my personal favorite is that it seems to be impossible to back lash. In tournament fishing, where every minute counts, the last thing I need is to be wasting time dealing with reel hang ups. It simply does not happen with the WaveSpin™. The versatility of the WaveSpin is also impressive; I can cast a country mile or put a bait under a pier at two feet. Leave it to Doug to come up with such a genius invention!

Mary DiVincenti, WBFA World Champion 2003
